

Simon (Sihyeon) Kim

Toronto, ON, Canada | simonkim.kim@mail.utoronto.ca | [linkedin.com/in/simon-sihyeon-kim](https://www.linkedin.com/in/simon-sihyeon-kim)

PROFESSIONAL SUMMARY

M.Ed. (Higher Education) candidate at OISE / University of Toronto (4.0/4.0) with a Computer Science background and 9+ years spanning manufacturing, higher-education, and startup operations. At Maple Armor, surpassed the full \$300K annual sales quota by mid-year (year-to-date ~\$305K, ~102%), originated a \$2M+ multi-year platform opportunity and a seven-workstream strategic-distributor partnership, then expanded into company-wide operations: serving as Microsoft 365 administrator across four offices, leading an enterprise ERP deployment, implementing AI tools for productivity, and owning NDA / confidentiality compliance. Prior: \$1.2M CAD pre-seed across seven research teams at KARI, \$950K non-dilutive funding at AmplifiedSpace, and 2,100+ applicants processed across 12 partner universities at Rotman CDL. Trilingual (English, French, Korean; working Portuguese); FIPPA / EDIOO / SafeTALK trained.

EDUCATION

Master of Education, Higher Education

OISE, University of Toronto • Toronto, ON | 4.0/4.0 | Expected 2026 (Evening Part-Time)

Bachelor of Arts, Computer Science (Major Concentration)

McGill University • Montreal, QC | 3.8/4.0, Dean's Honour List | 2018

SKILLS

- **Languages:** Korean (Native) | English (Fluent) | French (Professional Working) | Portuguese (Professional Working)
- **Microsoft 365 & Administration:** Microsoft 365 (Teams, SharePoint, Planner, Project, Outlook, Access), Microsoft 365 Administration (Exchange Online, account / license provisioning, shared mailboxes, aliases, security groups), Power Automate
- **AI & Automation:** Claude, Microsoft 365 Copilot, ChatGPT, Power Automate, Zapier, Make
- **CRM & Data:** Salesforce, HubSpot, Pipedrive, Excel VBA, Tableau, Power BI, MySQL, PostgreSQL, MongoDB, Microsoft Forms

- **Programming & Web:** Python, F#, Java, JavaScript, PHP, C, AWS, HTML5, GitHub, WordPress, Webflow, Figma, Canva
- **Collaboration & PM:** Notion, Slack, Zoom, Jira, Confluence, Trello, Asana, ClickUp, Monday.com, Airtable
- **Certifications:** FIPPA (Freedom of Information and Protection of Privacy Act) | EDIOO (Equity, Diversity, Inclusion, Outreach, Outcomes) | SafeTALK

EXPERIENCE

Special Project Lead / Executive Assistant to the President

Maple Armor

October 2025 - Present, Ontario, Canada

- Surpassed the full \$300K annual sales quota by mid-year (year-to-date ~\$305K, ~102%, with the quota year unfinished) at a 44% RFQ-to-win conversion, across Fire Protection, Electrical Contractor, and Distributor segments.
- Originated and advanced a \$2M+ multi-year platform opportunity (standardized E-house / container fire-alarm packages) with a Quebec manufacturer targeting roughly 100 units in year one, cross-selling a complementary battery-energy-storage solution.
- Structured a seven-workstream strategic partnership with Manitoba's largest engineered-systems distributor, framing a tentative agreement scaling from \$500K to \$2M annually by 2030 with provincial exclusivity and a master / sub-dealer model.

- Launched two new product verticals (Batteries, Emergency Lighting) end-to-end (distributor vetting, contract drafting, pricing) and built a battery / COTS pricing framework with a new distributor tier and forward-buy strategy, protecting margins.
- Serve as the company's Microsoft 365 administrator across four offices (Canada, US, China, India): architected the SharePoint and Teams information backbone and provision and govern user accounts, Exchange shared mailboxes and aliases, licensing, and security-group access, with HR and Finance isolated as locked sites.
- Led an enterprise-wide ERP deployment as cross-functional coordinator across Supply Chain, Accounting, Design, and Sales, including hands-on QA of the estimation and quotation modules; reformed Accounts Receivable by linking billing to delivery confirmation, standardized SKU / product codes across departments, and authored a CEO-level warehouse-expansion feasibility study aligned to projected growth.
- Implemented AI tools to raise team productivity, deploying AI-assisted drafting and document review into daily operations (including bilingual English / French legal agreements) and supporting rollout of the group's internal AI training and onboarding platform.
- Originated a Quebec engineering-consulting partnership, finalizing a mutual NDA (bilingual English / French, via DocuSign) to open a local drawings-and-stamping channel that addresses the institutional engineering-approval gatekeeper; own confidentiality / NDA compliance and corporate marketing, including the company-wide Series 2 product brochure (led end-to-end) and trade-show / conference presence (FSIE Expo 2026, NFPA, TRACCS Rail Day).

SHRL Training Committee, OISE Internship

University of Toronto Mississauga - Student Affairs

May 2025 - August 2025, Mississauga, ON

- Digitized and standardized departmental workflows using Microsoft Forms, Power Automate, and SharePoint, cutting review and processing time 45% and centralizing records for 91 student staff.
- Built a centralized compliance dashboard (Excel + Power Automate) linking 6 role-specific sheets with real-time supervisor roll-ups, reducing data-retrieval time 70%.
- Administered online-training distribution for 8 mandatory compliance modules (First Aid, AODA, WHMIS, Sexual Violence Prevention) and created an email triage and case-tracking system, achieving 100% completion and closure rates.

Commercialization Advisor

Korea Aerospace Research Institute (KARI)

April 2024 - April 2025, Daejeon, South Korea (remote)

- Delivered 'Entrepreneurship 101' workshops and advisory coaching to 7 spin-off research projects; provided invention-disclosure and commercialization guidance aligned with institutional policies at Korean universities, TTOs, and innovation parks.
- Secured approximately \$1.2M CAD in funding by connecting ventures to global VCs and Innovation Agency partners.
- Collaborated with leading higher-education partners including Seoul National University and KAIST (Korea Advanced Institute of Science & Technology).

Interim Business Development Lead

AmplifiedSpace Inc.

February 2024 - January 2025, Colorado, US (remote)

- Co-led acquisition of \$950K in non-dilutive funding through grant writing and business proposals (ISS National Laboratory \$200K; State of Colorado \$750K); secured \$500K pre-seed from eight investors.
- Managed logistics and represented the company at U.S., South Korean, and virtual conferences, producing two flight-collaboration opportunities, \$160K in demo sales, and \$500K in VC leads.
- Implemented new CRM systems (Salesforce, Pipedrive), overhauling lead tracking and pipeline administration and increasing operational efficiency by 75%.

Venture Manager and Recruitment Co-Lead (Creative Destruction Lab)

Rotman School of Management, University of Toronto

January 2023 - February 2024, Toronto, ON

- Co-led launch of CDL-Berlin and expansion of CDL-Global Space; managed end-to-end recruitment and program administration for 81 ventures across 26 countries, achieving 92% satisfaction.

- Administered applicant review across 2,100+ records (Salesforce, Airtable, Excel), refining stream positioning and strategic recruitment; presented findings to faculty fellows and executive leadership.
- Streamlined multi-partner evaluation workflows across 12 partner universities and liaised with industry and government stakeholders, contributing to EUR 107.7M in equity value creation and \$4M in saved experimental costs.
- Coordinated 16 mentorship sessions involving 200+ participants from 22 countries; delivered 480 mentor-venture matchings.

Co-Founder and CEO

BYLOCL Enterprises Inc.

August 2016 - December 2022, South Korea and Montreal, QC

- Founded and scaled a cross-continental personal-shopping startup to over KRW 7M in GMV; designed and built a custom ERP (order tracking, inventory, shipping) that cut logistics costs 68%.
- Recruited and managed a 15-person multinational team across 5 countries and administered legal and trade compliance, reducing overhead 35% via international artisan contracts.

INVOLVEMENT

- Qonference: Content Advisory Council member (Entrepreneurship Education focus)
- QueerTech: Co-organizer of networking events and workshops; moderated panel 'Opportunities in Canadian Ecosystem' across Alberta, Nova Scotia, Ontario, Quebec; ~1,000 contacts established
- Business in the Streets (BITS): entrepreneurship-education support for Black and marginalized youth
- Indigenous programming: support and engagement
